Notice to the Mercantile Public.

The Post-Master General and Director of Telegraphs deems it his duty to let the Public, especially the Mercantile portion of it, know—
1st. That, in accordance with the regulations of this department, all complaints respecting the mislaying or loss of letters are immediately attended to, and diligent search made for the missing correspondence, and steps taken to punish those in fault, if such there be.
2nd. That anonymous complaints through the Press will not be taken as a basis for any steps whatever, nor will any inquiry be instituted on such ground.
3rd. That, notwithstanding, a morning paper of this city having referred, in a recent issue, to loss of correspondence in August last (a time when, as everybody knows, the Post and Telegraph Department had not been reorganized) the three merchants alluded to are requested to lay particulars before this Department, so that the steps prescribed by the Regulations may be taken forthwith.
4th. That all persons having any complaints pending are, in like manner, requested to at once lay them before this Department, in any shape, provided that they be signed, and they shall meet immediate attention, as it is the first duty of the Department to inspire confidence in the public, and especially the mercantile public, and to omit no possible effort to bring the truth to light in all cases.

Colegio Nacional
B. Aires 24 de Enero 1881
Señores Runciman y Cia
73 Calle Piedad
Muy Sres. mios
Me es grato comunicar a Vds el resultado satisfactorio del nuevo examen quimico del 'Flu do Little' que acabo de practicar sobre una muestra de este especifico enviada por Vds a este laboratorio el 12 del corr. y fabricado por Morris Little e Hijo en Inglaterra.
Confrontando el analisis de esta muestra con mi analisis del mismo especifico practicado en Febrero de 1879 encuentro un aumento considerable en su grado de concentracion; su densidad es superior, la proporcion de fenoles contenidos en los aceites es mayor, y en una palabra lo considero no solo superior al producto primitivo, sino el mas concentrado y activo de cuantos de su clase he tenido ocasion de examinar hasta la fecha. Esta observacion se refiere, se entiende, esclusivamente a los especificos contra la sarna, que tienen por base los aceites Hidro carburados y fenoles del alquitran y que no deben su eficacia al arsenico, al azufre, o al tabaco, sustancias que no existen en el 'Fluido Little.' Apesar de su mayor concentracion el Fluido se mezcla con el agua fria con la misma facilidad y perfeccion como antes.
Me repito de Vds

In wenigen Tagen kommen die ersten Nummern der Zeitschriften vom neuen Jahre an.
Meine Zeitschriften-Agentur hat auch in diesem Jahre das Vergnügen, die Zahl ihrer Abonnenten beträchtlich vergrö sert zu haben. Bei der immer mehr bekannt werdenden brillanten Lieferung war dies vorauszusehen, und hatte ich demgemäss meine Bestellungen bedeutend vermehrt. Diesem Umstande nur ist es zuzuschreiben, dass ich noch den neu eintretenden Abonnenten auf einige Zeitschriften solche SOFORT liefern kann, bitte aber um BALDIGE Anmeldung, da der disponible Vorrath nur noch sehr gering ist.
Auch Reflectanten auf Zeitschriften, deren Jahrgang im October begann kann ich jetzt gerecht werden, da ich gestern von Ueber Land und Meer, Buch für Alle, Illustrirte Welt, Deutsche Romanzeitung, etc. neuen Vorrath empfing. Alle dessfallsigen rückständigen Bestellungen werden jetzt erledigt.

The Course of Medicine
How Patients are deceived.

Most persons seem to have the impression that all so-called Liver Medicines go straight to the liver. Medicine, like food, goes immediately to the stomach; a portion mixes with the substances, and acts as a cathartic, while the remainder enters the circulation, and takes a large route through the blood, finally to the liver, and we may add, as a rule, does no permanent good, but rather leaves baneful effects, and begins a pernicious practice, which, if followed up, will eventually destroy the stomach and fasten disease in the system, never to be eradicated.
Not so, however, with the Holman Pad. It works direct y upon the liver through the pores of the skin, quietly, thoroughly, and without inconvenience, performing a most important function. And we add this remarkable statement, challenging refutation, that in its extensive use by and including all classes of persons, from old age to helpless infancy, not a single case of injury has occurred, while 90 per cent are cured.

London 26th,

Commons will begin to-morrow the discussion of a Bill embodying special and very severe legislation for Ireland, giving Government powers for restoring peace in the island. Government is already taking the most energetic steps to overcome the insurrection and frustrate any attempts by its leaders against the public peace.

Lisbon 26th.

Telegraphic communication between here and Vigo interrupted. Telegrams for Continent go by Malta.

NATIONAL REFORMS.

Through the dim light of a procession of reformatory decrees, the public is gradually awakening to the very neglected state of every department of public affairs; and it sympathy and esteem can spur President Roca on in his splendid programme, we may look for increased method and improvement in every department, as the whole country, to a man, is with him. For those who take an interest in the future of this Republic, the present transition period must possess intense attraction. It is not to say that abuses exist in every branch of administration, but negligence and corruption had reached such a pass that there was really no Administration at all. The Government and the country seemed to hold together on a species of hand-to-mouth existence, which has led to such cruel consequences that our very soldiers are our chief creditors, and our navy, that cost such million to create, has almost dissolved. Our sailors are insubordinate for the want of their pay; our ships—some of the finest the arsenals of England can turn out—are lying up under the boughs of the very Tigre willows, that weep over the warped decks without awning or oakum, and the boiler plates are gone to the thinness of a pen knife blade for the want of skilled labour to care the engines. It is not our province to go further in this schedule of abuses, or tease our readers with a too painful exposure of corruption and neglect in matters that are anchored nearer to us than the Tigre; but it there be one humiliation greater than another, it is to see the affairs of so young and fair a country enveloped in such confusion that the Government House has more the appearance of an Insolvent Debtors' Court than anything else; and the crowds of visitors upstairs in the Ministers' chambers and in the galleries, are made up of creditors and 'explotadores,' who, if public affairs were in proper train, would be at some more useful employment than smoking paper cigars and talking politics.

The army and navy are at last to be paid each month; all outstandings are postponed until Congress meets, when the funds to discharge them will be provided. President Roca is resolved to pay the soldiers and sailors every month, and if the revenue of the country is insufficient, then he proposes to reduce all the salaries of the public employees, beginning with his own, and terminating with the Government-house porters.

The National Guard throughout the Republic is to undergo vigorous periodical drill, until this hitherto mythical force shall be as effective as in Germany or France. The troops of the line are to be quartered at the most exposed parts of the country, and at every frontier fort they are to make military farms, which in turn will form the nucleus of European colonies. All the arroyos and river ports are to be dredged, moles repaired and bars removed. Our trunk railways are to be carried to the great fountain spring of production, and the National Department of Engineers is to superintend and carry out these works as quickly and as economically as possible. President Roca can already point to the new earthworks on the San Luis and Mendoza railways, made at a cost of $17 m|c per vara, against $50 m|c, paid by former Administrations.

Much stress is laid on the armaments purchased in Europe for this Republic, and the expensive ironclads at present under contract for the Government; but people overlook the fact that the rapid growth of the country's interests necessitates this outlay. We want a fleet and a marine for our seaboard just as much as we want troops of the line with the very best Remingtons on the Rio Negro, Every country that is worth calling a country attends to these matters—none more so than our own. Yet the launch of a new ironclad by the English Admiralty has never yet been interpreted as an indication of a new war, and it is not because, through the patriotism and good sense of Chilian and Argentine statesmen, the disputes about Patagonia are now about to be peaceably settled, that the Argentine Government should moor its war vessels along the Tigre bank and, under the plea of economy, reduce the country to a marine level with Honduras or Bolivia.

Our institutions or our laws are not brought into collision with any of those great reforms which mark the Policy of President Roca's Government; and we interpose our opinion, however feeble, to protect from undue criticism those great reforms which, to the credit of the new Government, strike at abuses whose genealogy, we regret to say, is but too easily traced.

The Magellan's Mails

London, Dec. 31st

An official telegram has been received at the War Office, fully confirming the intelligence we published yesterday in a special despatch of the events at Potchefstroom. It adds, further, an important rumour that the Boers have occupied Pretoria, and that there also our troops have had to retire into the fort.

From Cape Town our correspondent telegraphs that the first news as to the attack on our troops between Leydenburg and Pretoria, and our loss of 120 men is officially confirmed.

Endeavours are being made by the Porte to obtain the consent of the Powers to a new conference on the Greek question, in which Turkey and Greece would be represented. The German Government, it is stated, has for the present declined to enter into negotiations upon the basis proposed, regarding the proposal as inopportune.

Our Vienna correspondent states that the arbitration scheme was yesterday to be submitted to the Porte, in an informal way, by one of the foreign Ambassadors. As yet it has not been decided when the Greeks are to be consulted in the matter.

Prince Alexander of Bulgaria yesterday went in State to the National Assembly to close the Session. The speech from the Throne was delivered in the Bulgarian language.

In token of the friendly relations between Servia and Greece, Prince Milan has sent to King George the insignia of the Takovo Order.

An Imperial decree, which is to come into force at the beginning of the Russian New Year, was published at St Petersburg yesterday reducing the import duty on salt, and increasing the import duty on foreign goods, and doubling the tax of trade guilds.

Negotiations with the Chinese are, our St. Petersburg correspondent telegraphs, said to be proceeding satisfactorily, both sides making concessions, especially the Chinese, by the opening of the whole of their Western frontier to Russian trade. The treaty is likely to be concluded next month.

King Alfonso yesterday opened the Spanish Cortes with a speech from the throne, in which he said that, actuated by no ambition abroad and fettered by no fears at home, Spanish diplomacy was endeavouring to extend the commercial relations of the country with America and Europe, and would neglect no effort to obtain from foreign nations equal advantages with those which Spain granted to them by treaties of commerce.

At the Seine Assizes yesterday the Comte de Dion was indicted for a violent assault upon M. Aurelien Scholl, of the *Evenement*, at Bignon's Restaurant, in September last. M de Dion was convicted, with extenuating circumstances, and sentenced to two months' imprisonment, and to pay a fine of 200f.

Floods of a very serious character have occurred in the Eastern Provinces of Holland. By the breaking down of the dykes between Nieuwkuyk and Vlymer, eighteen villages have been flooded. The state of affairs is reported to be most disastrous.

De Jongh, the murderer of the schoolboy Marius Boorgaerdt, has been sentenced to imprisonment.

An address to the people of England, in favour of the independence of the Transvaal, is being circulating by Professor Harting, of the University of Utrecht, and has received the signatures of a number of influential men, including many members of the States General.

According to the first count of the American census, which is nearly finished, the population of the U. States is shown to be over 51,000,000.

Snow has fallen heavily in the Eastern and Southern States of America, and the railroads have in consequence been blocked. The cold registered in some places has been 25 degrees below zero.

Professor Hind has written another letter to the Marquis of Lorne, specifying the forgeries and falsifications in the fishery statistics referred to in his previous letter to the Governor-General,

A Cabinet Council was held yesterday, at which all the Ministers were present. Summonses have been issued for another Council to-day.

Sir Hercules Robinson, the newly appointed Governor of the Cape of Good Hope, sailed from Southampton yesterday in the Union Company's steamship German for South Africa.

The Crown prosecutions were resumed yesterday morning in the Court of the Queeus's Bench, Dublin, before Justices Fitzgerald and Barry. The Attorney General continued his statement on behalf of the Crown, and had not concluded at the rising of the Court.

Yesterday morning the Wednesbury police apprehended Thomas Hennelly, at High Bullen, Wednesbury, for the murder of Lord Mountmorres; he is also suspected of the Holiball murder. Hennelly, it appears, is the son of a butcher who lives at Clonbur.

Mr Knight and Mr Daniel Joseph Keymer appeared at the Bow-street Police-court yesterday to answer a charge of publishing a false and defamatory libel of the Ameer of Hyderabad in the *Statesman*. Sir James Ingham committed the defendant Knight for trial, and the summons against Keymer was withdrawn.

At the Stock Exchange yesterday the fortnightly settlement was satisfactorily completed, and many purchases were made for the new account, especially of foreign bonds, which were higher in most instances, Russian being in prominent request. Amongst Home railways, Great Eastern and Great Western improved about 1. American lines were also better, and Consols rose ⅛ per cent for cash. On balance, a trifling amount of gold was withdrawn from the Bank for export.

The Court of the Queen's Bench sat again yesterday morning—being the third day—to continue the hear-

ing of the State prosecutions, and it was evident from the outset that the excitement of the first and second days had considerably declined. There were no crowds in the streets, and the Court itself was only moderately filled, principally by the supporters of the Land League and a number of ladies and Catholic clergymen. Most of the traversers attended at intervals during the day, and Mr Parnell, Mr Sexton Mr Biggar, Mr Sullivan, Mr Dillon, and Mr Brennan remained in court during the entire sitting, which did not terminate until nearly 5 o'clock. The Attorney-General's arguments were very lengthy, and were mainly an exhaustive review of the speeches made by the principal members of the League, and its accredited agents, or 'missionaries,' as they were termed at the agitation meetings held during the twelve months throughout the country. All the public utterances of the traversers, he said, breathed the same spirit and had the same aim and origin.

James Rearmy, a miller, living near Claremorris, received a threatening letter on Wednesday morning, bearing the Ballyhaunis postmark. The letter stated that if Rearmy ground oats for any men who dared to pay any more than Griffith's valuation for their holdings, the 'worms in the grave would soon have a New Year's gift of his body.' A representation of a coffin was drawn by pencil at the end of the letter. Rearmy gave the letter into the hands of the police.

Mr W C M'Cormick, of Dublin and Mayo, who took a farm from Miss Gardiner, an unpopular landlady, residing near Ballina, has been Boycotted. His cattle were driven off and dispersed throughout the country, and he has finally been compelled to give up the farm. Two additional arrests have been made in connection with the alleged murder of a farmer named M'Kenna, near Ballina.

At a meeting of the Kilkenny Corporation yesterday, a resolution requesting her Imperial Majesty the Empress of Austria to reconsider her decision not to visit Ireland at present was unanimously adopted.

A resolution was passed by the Westport Land League last evening expressing regret that Mr Livingstone, a local landlord and merchant, had received a threatening letter, and denouncing the object of the sender as base and cowardly. At the County Court yesterday a civil bill officer stated that Mr Stoney, a local landowner, had left the country, and sent him a number of processes for rent to serve them, as he believed his own life would be in danger in case of any attempt to do so on his part.

A correspondent of the *Irish Times* states that the authorities have it in contemplation to despatch almost immediately flying columns over the country, as was done during the late Fenian rising. It is said that every step necessary for this movement has been already arranged, and that nine different columns will be started—two from Dublin, and two from the Curragh, one from Athlone, one from Cork, one from Fermoy, and one from Limerick and Belfast. Each column will comprise one troop of cavalry, a division of Royal Artillery with two guns, four companies of infantry, and ten sappers. It is also stated that a detachment of the Army Service Corps, with four general service wagons, with ambulance wagons, will be despatched, each soldier carrying sixty rounds of ball cartridge, and the cavalry and artillery a full supply.

The Earl of Kenmare has telegraphed orders that the labourers on his Killarney estate who were recently thrown out of employ should be restored to their work.

A Cork correspondent telegraphs that a sub-constable named James Byrne, of Holford, county Tipperary, has been fired at whilst returning to his station, and lies in a precarious state.

Armed men have been visiting the houses of obnoxious tenants in the glen of Aherlow, county Tipperary.

The tenants on the Edenderry estate of the Marquis of Downshire petitioned the trustees for an abatement of 25 per cent, and on its being refused they met yesterday and passed a resolution refusing to pay any rent until the Government Land Bill had been passed or the reduction granted. The agent asserts that the property is underlet.

At Clonmel yesterday six men were committed for trial on a charge of rioting and assaulting the police on the occasion of 'Boycotting' the cattle of two local gentry at Golden Cashel fair.

Two men were fined £5 each or two months' imprisonment at Cashel Sessions yesterday for 'Boycotting'. The Crown solicitor prosecuted.

At the county petty sessions, Limerick, yesterday, John Collins was charged with taking forcible possession of a house, the property of a man named Healy. Healy, it appears gave Collins the sum of £75 for the house and land, which is situated at a place called Coonagh, county Limerick; but he received a threatening letter on him to give up possession. A heifer the property of Healy was maliciously killed. Collins was returned for trial.

A largely attended meeting, under the auspices of the Land League, was held yesterday at Clogher, county Tyrone. About 6,000 persons were present. William Irwin, a tenant farmer, presided, and resolutions were adopted to the effect that in the opinion of the meeting a peasant proprietary is the best way to root the tenant in the soil, and secure to him the fruit of his labour; further that it is essential to the peace and prosperity of the country, and those present were resolved to use all constitutional means in their power to produce a peasant proprietary; that they approved of the principles of the Land League, and pledged themselves never to desist from their efforts to alleviate the wrongs of the tenant farmers, and to aid them by every justifiable means to establish a peasant proprietary, believing it is the only satisfactory mode of settling the Irish land question. They also pledged themselves not to take a farm from which a tenant had been unjustly evicted, and further not to purchase any goods or cattle seized for rent. Among the speakers was Mr O'Kelly, M.P.

Berlin, Dec. 30.— The Admirality has ordered the despatch of the steam corvette Victoria to the West Coast of Africa for the purpose of chastising Kroomen for having pillaged the German vessel Carlos, which was wrecked on that coast. The captain of the Carlos will sail in the Victoria. It will be recollected that the Victoria is the German man-of-war which took part in the naval demonstration of the allied squadrons in the Adriatic.

Amsterdam, Dec. 30.— Floods of a most serious character have occurred in the Southern Provinces. A telegram from Bois-le-Duc announces that the dykes between Nieuwkuyk and Vlymen have broken down for a distance of fifty metres, and that the waters passing through the breach have flooded eighteen villages in the country lying between Altena and Heusden. The state of affairs is most disastrous, and the relief committee organised at the time of the last inundations has been reconstituted.

Rome, Thursday.

The Propaganda has received a communication from Ireland, which states that only three Roman Catholic bishops and sixty priests have really joined the Land Leaguers, and that the others have assisted at meetings owing to menaces.

EDITOR'S TABLE.

The news from Europe both by newspaper and cable is decidedly glum. Turkey and Greece seem bent on cutting each other's throats, and we are not so sure that it might not tend to subsequent greater peace in the East of Europe, if the Great Powers were to stand by and let them do it; and if the set-to should have the same result as the famous feline battle which took place, once upon a time, in the ancient town of Kilkenny, we venture to say Europe would not go into mourning for the simultaneous demise of two such troublesome customers. It is horrible to read the accounts of the inundations in England, Holland, Belgium and other parts of Europe. The losses are fearful. We give all the latest news in another column. The trial of Mr Parnell and his fellow Leaguers began in Dublin on the 28th ult, Chief Justice May very wisely withdrew, and Mr Justice Fitzgerald and Mr Justice Barry are trying the case. There are eight Catholics, three Protestants and one Quaker on the jury. The Attorney-General's opening speech was a moderate one enough, so far as we have read it.

Mr Keyser, agent for the Continental Telephone Company, who has obtained an exclusive concession in Buenos Ayres for eight years, and in Montevideo for ten years, left yesterday for New York in the Halley, to catch the American steamer at Bahia; he goes to bring out the necessary instruments etc., and will return within 70 days. The business here remains in charge of Mr Ernesto Lans. On Tuesday next a first experiment will be made between the Bolsa and the Municipality, and the Lord Mayor intends to invite a number of leading families to witness it. We feel completely overcome by all the wonders we have heard about the telephone within the past few days. When it is in full swing, no man need allow himself to be heartlessly betrayed into a cold mutton 'comida,' as it will be the simplest thing in life to get a 'viva voce' answer from the domestic hearth as to 'what's for dinner?' The telephone has saved the lives of thousands in London in this way.

The latest news from Chubut is that new buildings are going up on all sides, and the settlement is extending rapidly. Another large arrival of new colonists from Wales is expected in May.

The weather warmed up to such an inconvenient extent yesterday that we had mosquitos to lunch in Printing House Square, for the first time this season. The barometer is working beautifully.

A Municipal Bondholder, in a painfully depressed state of mind, called on us yesterday. He spoke with great feeling of the priceless advantage of having the city federalized, and of the vast works and improvements which both the National and Provincial Governments have in view, alluding incidentally to the fact that five quarters' coupons were now due on his Bonds, and that it was in every way probable that twice five would be due before the holders would pocket a copper real of their interest: Our visitor professed the deepest gratitude for the good intentions of both the National and Provincial Governments towards himself and fellow Bondholders, but said he had a prophetic feeling that, between these two big stools, they would come to the ground. He left us, with a smile on his lip and a tear in his eye. It is about time for the Provincial Government to make good its guarantee of the Municipal Bonds. What has become of the honest and very proper proposal to sell Public Lands and pay the unfortunate City Bondholders. That proposal, we suppose, was too good for this world, and so has died a natural death. The old story.

The Lord Mayor sent a project yesterday to the Nat. Government proposing new boundaries for the city, in which the whole of Almagro will be included, and a circular Boulevard made round the Capital. We referred to this six weeks ago.

Vasura carts on a new system have been offered to the Municipality. If it were practicable for the Corporation, we should urge the immediate acquisition of these carts, as the old ones are simply a disgrace to the city, but as there is no cash, it is useless to advise this or that.

Lady Florence Dixie, who was here some years ago and made a trip through Patagonia, in company with her husband, her brother, the Marquis of Queensberry, Lord James Douglas and Mr. Beerbohme, has given the British public the benefit of her experiences in a book just published, and which is favourably reviewed by the London press. The style is said to be lively and pleasant, like the fair author.

There is a big new ironclad—the Arturo Prat—ready in England for the Chilians, and it is said that this naval dog of war will sail for Valparaiso at the same time as the Admiral Brown weighs anchor for the Plate.

A free fight with razors, between a crowd of newsboys, was providentially prevented on Wednesday by two gentlemen who were passing by, and who offered mediation and arbitration on the question at issue, which was one as to what 'limits' should fairly be assigned to cheating at cards amongst young gentlemen—of the 'pavé.'

The privilege of sending letters through the Post without stamping them has been withdrawn from the officers of the army, but not from the rank and file. The epistolary correspondence of the latter can hardly amount to much.

The latest sensational rumour from Montevideo is that Colonel Santos has started for his estancio at Colorado, to 'throw up the poncho.'

San Nicolas will soon outstrip Cape Horn in the way of storms. There was another furious 'tormenta' there on Monday last, with fearful lightning, but although thunderbolts fell in several parts of the town the local undertaker did not profit by it in the least.

The papers tell of a comical affair in Calle Uruguay the other day. An Italian named Bassi made his way into the kitchen of an eating house, and, during the cook's absence for a moment, tried to cut his throat with the biggest knife in the place. The Knight of the Saucepan returned in time to save Society the irreparable loss of Mr Bassi, who was taken to the Comisaria: While he was explaining the gash in his not over clean throat and declaring solemnly that it was 'the lemonade' did it, the Commissary was summoned to attend a lady in the outer office, who was crying her eyes out. The Commissary, like a gallant man, rushed out thinking he had a pretty girl to deal with, but found himself in presence of a fat and by no means well-favoured dame whose dimensions would throw the President of the Fat-Men's Club into the shade. After much sobbing, coughing, hemming, hawing and fruitless attempts at a blush, she told the Commissary that Bassi had tried to commit suicide, because she had rejected his hand and heart. The poor police officer nearly perished in the attempt to suffocate his laughter, but managed to do so till he bowed his visitor out, and then he exploded. By latest accounts he was roaring with laughter still.

It is said there were over 7000 people at the bull-fight in Montevideo on Sunday last. General Sarmiento and Dr Pellegrini were present. The papers were filled with accounts of the degrading sight.

The Provincial Bank building is said to be again in need of the services of an architect, as part of it is in a shaky condition.

One of the most interesting exhibits at the forthcoming Italian Exhibition will be a column of Azul marble, yellow, veined with red, on a black pedestal, and exquisitely sculptured by Signor Creppa, who has recently arrived from the sunny cradle-land of all the arts.

ON 'CHANGE.

Jan. 27th, 1881

Patacons	29.20
Cedulas A	87½
National Bank Shares	73½
Bonos	Par

The gold market ruled quiet to-day, notwithstanding that the sales reached over a million, but these very heavy sales are chiefly to close the month's liquidation, which is now near at hand; speculators are now transferring their operations to the end of February and March. Gold opened at 29.25, dropped to 29.15, and closed at 29.20. Cash sales 82,180 pats. Cedulas rule very hard and prices advanced to 87½; but the exciting stock of the day was the National Bank Shares, all sorts of rumours being current about the meeting to-day. Strange to say the Informe was not to be had on 'Change, but the news was that the gross profits of the year amounted to 600,000 pats., and that from these splendid earnings all the bad and doubtful debts accumulating for years were to be swept off to the figure of say 600,000 pats. This of course puts the Bank on an entirely new basis, and with the 400,000 pats. recognised by the Senate as due by the Government to the Bank, the capital will be at once increased. A dividend of 3 o/o per share is proposed. All these matters were discussed on 'Change and great interest taken in the result of the meeting; all the shareholders sigh to have Dr Zorrilla on the board. We hold for to-morrow the memoria, but in a matter of such great interest, where half the market holds shares, we give without delay the balance-sheet, which shows very clearly how this flourishing concern now stands:—

Mr H A Green, agent for the Royal Mail, reports nearly all the berths engaged for the April packet. Mr Thos. Drysdale, Mr Carabassa, the eminent banker, and many others have taken their passages.

News from Paris about Mr Wehely's French bank is most favorable; everything floating splendidly.

A magnificent miniature ship in full sail was put up on the Bolsa to-day; price asked 20,000 m/c, and cheap for the money.

We welcome to the Plate Mr Knight, a barrister from London, who has arrived out in his yacht, the Falcon, and as soon as the weather cools will proceed to Paraguay.

Mr Swinton K Jordan, who has arrived up from Curamalan, was warmly welcomed on 'Change by his numerous friends; he reports the camps there splendid.

The Hevelius and Halley both cleared today. This month Messrs Lamport & Holt had 8 steamers, of which 2 left in ballast, the rest full.

The Italian Bank has declared a dividend for the half year of $6.75cts. gold per share. We expect in a few days to get the report. Chevalier Pollinini was warmly congratulated on the splendid position of his bank.

Very important news from Montevideo we talked of on 'Change. It seems Aguirre, Chief of the Serenos, has demanded the resignation of Santos and McEachen; the latter resigned, but President Vidal, it seems, upholds Santos. Resignation of Requena expected.

Exchange rules at 49½; all the bills offering at 49⅝ having been passed. It is said the Government has taken a round sum.

The sales at the ring were—

The American barque Rebecca Crowell has brought the following valuable consignment to Franklin S Ropes—
2500 boxes kerosene
1500 do starch
350 brls sugar
200 boxes oysters
80 do lobsters
85 do salmon
700 do crackers
10 bales wick

Also a general cargo for other houses.

Three meetings were held to-day which, of course, much interrupted business—
Telephone meeting, Capt Mantons.
Bolsa meeting, Bolsa Hall.
Nat. Bank meeting.

Science claimed her own but we regret to say had few votaries; upstairs in a two pair back room over Burgos's, we found the following gentlemen assembled around an instrument which in the days of William Penn would have jeopardised their lives—Messrs Beau, Bankier, Gaunon, Grigg, Kenny, Mauton and Peake; the telephonic distance was necessarily short, but the whispering gallery of St. Paul's was eclipsed by the carpeted parlour of Doctor Newberry. Mr Bean and Mr Gannon spoke for sometime without the least interruption on Ireland, and her troubles, whilst Mr Grigg and Mr Bankier conversed in bated breath on the exchange and gold markets, and the more recent discoveries of Ancient Troy. Messrs Dennehy and Kenny spoke of the fortunes of the wool market, and really some of the words come so clear along the wire, that it appeared to us a species of ventriloquism when Mr Bankier whispered to Mr Grigg good bye. We understand that in a few days Capt. Mantan connects Wanklyn's quinta with the Government House, so that General Roca whilst sitting amongst the roses may hold a cabinet council with his Ministers.

The Bolsa meeting was less æsthetic; amidst the din and hum of many voices, Mr Emily Fernandez called the house to order, but the acoustic arrangements are so wretched that it was impossible to catch the Chairman's remarks. The report was read and passed, and Mr Fernandez, in a short but able speech, spoke to the matters referred to in that report, and moved that the gentlemen who accompanied the Bolsa Committee on their Peace mission be declared honorary members of the Bolsa, which was at once unanimously passed. The following are the gentlemen:—Messrs. Rawson, Mitre, V F Lopez, Sarmiento, Gorostiaga, Alberdi, and F Frias.

The election of the new Camara then proceeded resulting in

Julio Gondara
Carlos Wartemburg
D Parody

Brokers—
F Balbin
E Maschewitz
E Zwingen

And the Camara Interior—
Villar, Sorna, Basabe, Acevedo, Musso, Dumas and Jackson

This was pretty much all the Bolsa meeting amounted to—

As for the Nat. Bank meeting we must hold over our report till to-morrow. The list with most probabilities of success was—

Directors—
B Zorrilla
E Rodriguez Orey

Supplentes—
E Choyla
O Trelles

A most important meeting of the Bank Committee composed of Messrs Casares, Alvear, Tornquist, Mathev and Bunge was held at the Government House with the Governor and his Minister Dr de Maria, to consider the proposal of paying off the Bank. We are happy to say that almost everything has been agreed on, and the great question of interest guarantee also settled. For the present we must reserve further particulars.

Mr Walter S Keyser left to-day in the Halley for Bahia to catch the American steamer; he leaves Mr Lans with powers.

The suspension of a barraquero was spoken off, also the failure of another acopiador of wool at Mercedes; the whole country around plunged into trouble thereby.

The Sales at afterhours were—

Gold—
For cash 20,000 29.25
For Jan 31st 240,000 29.25-27½
For Febr. 28th 100,000 29.15-17½

Nat. Bank Shares
For Jan. 31st 200 shares 72⅝

All the English papers received per Guadiana speak most favorably of the Plate. We cut the following from a London paper:—

"Argentine Railways—From the report of the manager of the Cordoba and Tucuman Railway, dated November 15th, and published on November 23rd, we extract the following remarkable figures, showing the enormous development of the northern provinces of the Argentine Republic:—

"Tons carried during the period in each of the following years:—

	Tons.
9 months ending Sept. 30, 1877	120,000
9 " " " 78	150,000
9 " " " 79	220,000
9 " " " 80	290,000

"The traffic continues on the increase, the returns of the month of October being over 40,000 tons.

"According to the report in the London papers this morning, the earnings of the Central Argentine Railway during the 10 months ending October 31st last were £190,709, as against £148,347 in 1879.

"The guaranteed amount by the Argentine Government, being 7 per cent on £1,575,087, say £110,256, will be more than covered this year.

The papers at hand from the United States are filled with particulars of the great coffee failures there, perhaps the heaviest smash that has occurred there for very many years; we regret we cannot give all the very interesting details, but the affair was simply tremendous, and we note that the bankers in England have been caught in very heavily. On 11th of November the well known New York coffee firm of O Risley & Co. failed for 800,000 pats., on Dec. 7th Harwood & Co., liabilities a million pats., failed. Same day the great tobacco firm Allen & Co. failed. On Dec. 8th B J Arnold & Co. suspended, and O G Kimball, of Boston. The New York papers said:—

"This year is remarkable for the extent of the operations in coffee, and it has culminated in the suspension on Tuesday of Messrs B G Arnold & Co., 125 Front street. The Brazilian coffee crop was enormous this year, amounting to nearly 4 million bags, and the operations in it have been immense. Not only have the old and legitimate importers imported large quantities, but it is said the jobbers also, who formerly were content to buy of the importers and make their half to five-eighths of a cent profit, have gone into the direct importation of the article. Not merely in this city, but in the country as well, has this rage for coffee importation extended. The result has been, therefore, that the regular importers have found themselves with large stocks of coffee on their hands and a declining market. The present visible supply in this country and to arrive amounts to from 670,000–680,000 bags. We can bear an importation of about 200,000 bags a month, but the actual importation this year has been greater. The consumption, however, has been large, and for eleven months amounts to about 1,900,000 bags. Under the state of affairs described above, the market of course began to decline. This occurred on Sept. 17th when the price was 16 cents. On Sept. 24th the price was 15¾c.; on Oct. 1st, 14¾c.; on Oct. 8th, 14c.; on Oct. 15th, 13½-¾c; on Oct. 22nd, 14c.; on Nov. 12th, 13⅝c; a few days following it fell to 13c, and remained steady until Tuesday, when it reached the bottom price, 12¼c.

"This accumulation of stock and decline in prices precipitated the recent heavy failures of O Risley & Co., of this city; O G Kimball, of Boston, and B G Arnold & Co., as above announced. The latter firm has been for many years one of the largest in the trade. Two or 3 years ago, Mr Arnold was familiarly known as the 'Napoleon of the coffee trade'.

"Kidder, Peabody & Co., bankers, of Boston, Russell Sturges, James Hodgson, and Baring Bros. & Co. have, on a joint application, obtained an injunction from Judge Daniels, of the Supreme Court, against B G Arnold & Co."

"The next failure was Bowie Dash & Co. for 1,400,000 pats., and since then others have occurred, but of minor import."

The Custom House receipts on 26th inst. were—

The Anglo-South American agency notify that Mr J Vincent Barber has resigned his appointment as secretary to the company, and that Mr J C Coil Bull has been nominated by the board to fill the vacancy.

The following is the report of the Bolsa Committee for the past year:—

Gentlemen,

The Syndical Board according to the rules presents its annual report for 1880.

The new rules were approved of, and a new Secretary named.

A Body was named, representing the different branches of commerce.

The gentlemen in this body have lent most important services and given sound advice in judicial questions relating to the Courts, whether in town or camp; and the Camara Syndical avails itself of this opportunity to thank them.

The Arbitration Junta is very useful in settling questions between members; thus many disputes have been decided here instead of in the Courts, which has been a great economy of money and time.

As the valuation tarift was to be changed, the Camara directed a note to the Finance Minister, expressing a wish that the opinions of those representing our views should be heard in the matter. We received no answer to the letter.

As political events were hurried and peace was endangered the Board organised a peace meeting, which unfortunately did not prevent hostilities. The greatest statesmen in the country, the trade of the Republic, in fact all applauded the idea and joined in the movement.

As the plan to erect a new edifice failed, the Board has done its best to improve the present site. Several members were named to superintend the reforms. Many reforms have been introduced in the Contabilidad. A second railing was erected on petition of the brokers and the liquidation room only opened to same, to avoid scenes which discredited the Bolsa. An arrangement was made for a mutual telegraph service to and from Montevideo with the Centro Comercial. The monthly subscription continues to be $50 m/c, and the condition of the establishment is most prosperous. The following is a statement of the number of members for 1880—Members, 1,595, against 1,590 in 1879. There are 15 brokers less this year; of the members 335 are absent, 1,260 active; guaranteed brokers show an increase of 10 per cent. In spite of the many improvements and reforms and the 20 per cent of the subscriptions, which go to the reserve fund, we are able to declare a dividend of 6 per cent, or $60 per share. The reserve fund amounts to $135.73 m/c. of which 627,100 m/c are in 305 shares on the building; $5,000 m/c in a piece of land in the Tigre; 143,523 m/c deposited in the Provincial Bank, and 59,250 m/c in receipts to be collected. The reduction in the dividend is necessary, but transitory, and the money spent in improvements is well spent.

On the FALSIFIED—SUENNEE FRERES.

On the genuine—SOEHNEE FRERES.

The address is—

There are other differences we omit, such as the splendid odor which arises when opening the legitimate Varnish of

I notify buyers that the spurious stuff is sold for the same price, and even at higher prices than the genuine Varnish.

THE HERD AND STUD BOOKS

If proof were wanted of the immense strides this country has made of late years in the improvement of its lowing herds, it is to be found in the meeting at Messrs. Baltar and Quesada's, on Tuesday last, when the 'creme' of our bucolic magnates met to take preliminary steps for establishing a bovine Debrett and equine Almanach de Gotha for this country, into which, within the last ten years, some of the 'bluest blood' of both races has been imported from Europe. This happy thought of initiating a horse and cattle peerage list on which Argentine breeders can rely has not occurred to our estancieros a moment too soon, as it will save them from the disappointment which would overtake them through animals with the 'bar sinister' on their escutcheon being accepted as of pure blood, which is not only possible but probable under the present loose system. The eventual beneficial results of the step now taken can be judged by the fact that, short as the time is since Buenos Ayres cattle and horse breeders have taken the improvement of their breeds in hand, this country has already produced animals that can fairly hold their own with any of their class in Europe; and the climate and other conditions here are so infinitely superior to what Europe can command, that it can hardly be extravagant to anticipate that in time we shall, possibly, shoot ahead of the Old World in the production of thoroughbred stock. If we do, the credit of setting the ball rolling will be in a large measure due to the Tattersalls of the Plate—Messrs, Baltar and Quesada—for initiating the Argentine Herd and Stud Books, and most patriotically offering to pay all the preliminary expenses.

The meeting was very numerously attended by the leading estancieros of the province, and there was hardly standing room in Messrs Baltar and Quesada's spacious mart.

It was resolved to form an association to be called 'The Breeders' Club' (Sociedad de Criadores) of which Dn Eduardo Olive a was named by acclamation Honorary President, as a fitting acknowledgement of the great services he has rendered to Stock-raising and Agriculture in this country.

It was also resolved that admission to the new Club shall only be accorded to members of the Argentine Rural Society.

The meeting then proceeded to name a Committee, the following well known gentlemen being chosen.

Honorary President—Don Eduardo Olivera, (Pres. Argentine Rural Society.)
President—Dn Vicente C Casares
Vice-President—Dn David A. Shennan,
Secretary of Stud Book—Dn Emilio Nougier.
Secretary of Herd Book—D Luis P Molina.
Treasurers—Messrs Baltar and Quesada.
Directors—D. Carlos Urioste, Santiago Lawrie, Carlos Casares, S. Luro, Eduardo Casey, D Church, Thomas Duggan, Norberto Quirno, Exequiel de Elia, Juan N Fernandez, Guillermo Kemmis, Francisco Chas, Enrique Sumblad, Vicente Amadeo, Ricardo Newton, Juan Angel Molina, Juan Cobo, Carlos Pellegrini, Juan Malcom, Roberto Cano, Guillermo Anderson, Estanislao Frias, Norberto Quirno Costa, Domingo Frias.

A sub-Committee—Messrs Duggan, S. Quesada and Elia—was named to fillany vacancies that might arise in case any of the above mentioned gentlemen were unable to accept their nomination.

We do not expect to be challenged when we say that the gentlemen named on the Committee are emphatically the right men in the right place, and that the complete success of the 'Breeders' Club' is a foregone conclusion.

SHEEP DIPPING

To the Editor of the *Standard*

Dear sir

In reference to the communication 'Sheep Dipping' in your Weekly of 12th, the writer is in error as to the result of boiling together sulphur and quicklime. There is generally employed excess of sulphur, and consequently the solution is a pentasulphide of lime containing hyposulphite. The changes which the combined sulphur undergoes subsequently, according to the writer are entirely wrong, and have been ably corrected by Prof. Kyle; however, these are chemical questions inwhich the generality of your readers are not interested, still we must guard against incorrect statements which would mislead or prejudice, and it is with the disinterested intention of assisting sheep owners in a choice of a Sheep Dip that I make the following remarks. Referring to your advertisement columns the seeming difficulty of making a selection of a dip is great, but with a little knowledge it is simplified. The remedies offered in the market under various ficticious names may be thus classified.

1st Tobacco extract
2nd Do with sulphurous acid
3rd Carbolic acid
4th Do with glycerine or black soap to render it soluble.

I shall briefly give my opinion of those, derived from considerable practical experience.

Tobacco is a good curative but is uncertain in its results, according to the quality and condition, as neither the color of the solution nor the specific gravity indicate its curative strength; the extract of tobacco is even more liable to the same objections, and may contain adulterations which a chemical examination can alone determine.

Sulphur is preeminent for application in cutaneous diseases, but presents the difficulty of requiring a solvent in order to employ it satisfactorily as a dip or on hand curing. There is no substance unfortunately at our disposal for dissolving it, and leaving it in uncombined freedom, consequently we have recourse to alkalies such as lime, potash or soda, and I may here name that the result is not what your correspondent would lead us to infer, namely that the sulphur is simply dissolved, and the substances retain their individual properties. The sulphur on being boiled with either of these alkalies forms combinations according to the proportions used; the lime or potash, or soda loses almost entirely its causiticity. Similarly as the fatty acids combine with alkalies in the manufacture of soap. The use of lime I consider objectionable on account of its retaining its property of rendering water hard, and this is more so in connection with wool.

Potash is too costly for dissolving or combining with sulphur, and thus we make choice of soda as being cheaper than potash and superior to lime for the reason just named.

Sulphur in the form of sulphurous acid, from its nature is as objectionable as lime.

Carbolic acid,or more appropriately named phenol, offers many inducements as a disinfectant. The difficulty of rendering it soluble in any proportion of hot or cold water is very easily overcome, and we give the process subsequently. I have had a fair opportunity of testing its curative powers, having seen the result of hundreds of drums used and when used 'per se' I cannot give a favorable opinion, and I think its defect arises from its volatile nature, and consequently its action is too rapid.

I shall now give the method of preparing a compound which has been found to give excellent results, and necessitates the preparation of two liquids:—

1st. Carbolic acid is rendered soluble by heating with common yellow soap, in the proportion of 20 to 25 per cent of the latter, or say to a ten gallon drum of carbolic one arrobe of soap of the country. This may be performed in the drum in which the carbolic comes by cutting out the top and removing half the contents, and dissolving the soap at turn, so as to give space for the addition of the latter, and avoid risk of boiling over, or, if required in quantity, empty the contents of say three drums into a 100-gallon boiler, heat gently, and add three arrobes of soap cut in thin slices, and stir till dissolved. Prepared in this way, it will now mix in any proportion of hot or cold water, and is equal or superior to any carbolic preparation.

2nd. Dissolve caustic soda in water in the proportion of three pounds to one gallon of water, and when boiling and the soda dissolved add to the solution 3½ lbs flour of sulphur, and stir till dissolved.

To prepare the bath to 100 gallons water—

1 gall, carbolic solution
3 " sulphur "

Stir up the bath and it is ready for use.

It will present a rich creamy, opalescent appearance, arising from the sulphur being partly set free (the carbolic appropriating a portion of the soda from the sulphur solution) and in a fine state of division, and consequently in a favorable form for exercising its curative properties. The carbolic is thus partly converted into carbolate of soda. As the sheep emerge from the bath, they partake of the colour of the solution, but quickly darken, and will retain the colour for a week or two. This is due to the carbolic, which darkens on exposure to the sun rays, and is in no way due to the sulphur, which may be proved by using it alone. For hand curing the proportions may be doubled. I have dipped sheep in this bath in the months of June and July, with no loss from deaths, and so it may be regarded as a safe mixture. In the event of any further particulars being required, I shall be glad to furnish any information.

OF THE
MAGNIFICENT
CASA-QUINTA
OF
Amancio Pardo
In front of Caballito Station
Fine English Park
SPLENDID GRASSPLOT
The finest collection of Plants and Trees etc.
Comfortable and fine House

On Wednesday, 9th February, at 5 p.m. we will sell off by auction this well-known property situated in front of the Caballito Station of the Western Railway and lying alongside the beautiful properties of Messrs Zuberbuhler, Zorraquin, Niebuhr, Veniura Fernandez, Yosbay, Orma and Olivera.

This property is situated on rising ground, the highest for thirty leagues around, and the healthiest locality in the province. In the middle of the park stands the house; the park covers an area of a square, and the basis of sale for the whole property is only $500,000 m/c, with conditions most favorable to the buyer.

There are a varied collection of prize plants, a grand English park, a beautiful French 'pelouse,' and the finest pine trees, aromas, etc, in the province; the fruits from the quinta enjoy an enviable reputation.

The house, well built, comprises five large and comfortable apartments, high and well ventilated, a gallery surrounds the house with painted glass, whilst the vestibule affords a fine entrance, the house is comfortable in all seasons. A patio separates the house from the out-offices, four in number; besides there is a separate dwelling, with three rooms for servants.

It is necessary to see the quinta to form a correct judgment of the place.

The fruit garden is the best in the country

Plans and details will be given at our office San Martin 51.

There are several lots of land near, which will be sold same day and can be incorporated with the quinta. The quinta is open to inspection.

39 1/2 leguas cuadradas en un solo lote
Esplendidos campos de pastoreo, con arroyos permanentes, montes etc., con frente al Rio Parana y puertos para embarque y desembarque.

Base de venta $f.160,000 oro.

En nuestra casa—ALSINA 78.

El Miercoles 16 de Marzo,
A las 2 de la tarde.

Remataremos por orden del Directorio del Banco Nacional y con la basa de ciento sesenta mil pesos fuertes oro pagando el veinte por ciento al contado y el resto en una letra a 90 dias con interess del Banco renovable con amortizacion del 5 p cent trimestral sobre la suma originario de hipoca del bien raiz.

Esta valiosa propiedad domidada El Cerrito ubicada en el departamento del Parana distrito Tala, Maria Grande, Hernandarias y Antonio Tomas.

Se compone esto propiedad de treinta y nueve y media leguas cuadradas con un frente de mas de 3 leguas sobre el Rio Parana teniendo al interior innumerables arroyos en su mayor parte de aguadas permanentes, algunas de las cuales como el de la Curtiembre, Las Palmas del Medio, de La Cruz, que desembocan sobre el Rio Parana. Sobre el primero de estos arroyos exista la poblacion de la Curtiembre cerca de la Roca de Arroyo del mismo nombre donde existe un buen puerto ya muy frecuento La otra poblacion principal es el establecimiento El Cerro con algunos puertos de su dependencia distante de la ciudad de Parana 7 (siete) leguas, on esa parte y en el cual fondo como diez y siete leguas. La calidad de los campos en su mayor parte son pastos fuertes y entreverados, en los arroyos y canadas pastos tiernos, estan ademas muy poblados de monte de maderas duras como Nandubay, Algarrobo, Espinillos y renovales que se prestan a ser espectados en grande escala.

Debemos llamar muy especialmente la atencion de los capitalistas, no solo de este continente sino aun losdel viejo mundo, pues una area tan vasta situada en un rio navegable para buques de todo calado, con puntos accesibles a los mismos con inmensos montes cruzados por inumerables arroyos de aguada permanentes que esta destinada a hacer la fortuna de las personas que se dediquen a su esplotacion; en prueba de ello podemos citar los campos conocidos por el Potrero en la misma provincia que hace pocos anos fueron comprados por los Srs Unzue, Gelmaner y Ca, en 800,000 ps. fts., y que no darian hoy esa propiedad por el doble.

La propiedad El Cerrito debidamente poblada y esplotada sera una mina de oro. Y estamos convencidos de que sus compradores podran pagar en las condiciones ventajosas y facilidades dadas por el Banco Nacional los plazos estipulados en el producto mismo de este grandioso establecimiento de campo.

El terreno acaba de mensurare y esta perfectamente dividido en treinta y nueve lotes cada uno amojonado, de manera que se preste para el arriendo en fracciones pequeñas si es que el comprador no quiere esplotarlo todo entero.

Los Interesados pueden ocurrir por mas datos y plano a nuestra cas Alsina 78.

Dr. Jayne's ALTERATIVE

This valuable preparation combines all the medicinal virtues of those articles which long experience has proved to possess the most safe and efficient alterative and desobstruent properties, procuring for it a world-wide reputation as

THE GREAT PURIFIER OF THE BLOOD AND RENOVATOR OF THE SYSTEM.

Whenever the economy of the life-giving fluid has been vitated, it should be immediately called to help. It drives out pernicious humours, stimulates the absorbents, overcomes the obstinate state of the pores of the skin, regenerates the disordered organism, reestablishes health and spirits, and brings back a bright colour to the pallid complexion.

Thousands of testimonials establish its immense success for curing Scrofula or King's Evil, Skin and Mercurial diseases, Boils, Carbuncles and Ulcers, Dropsy and Dropsical Swellings, Enlargement and Ulceration of the Bones, Joints, Glands or Ligaments, Erysipelas, Epilepsy, Gout, Rheumatism and all diseases originating from a depraved and imperfect state of the Blood.

DR. JAYNE'S ALTERATIVE

is compounded from carefully selected drugs; free from all mineral admixtures and may be Safely Relied on by all needing a medicine to build up the system, cleanse the blood and restore the healthy action of the secretive organs.
